

# Supplier Declaration of Conformity (SDoC)

In accordance with ISO/IEC 17050-1:2004

<b>SDoC identification Number<sup>1</sup> - Devilink</b>			
<b>Issuer details</b>			
Name <sup>2</sup> (of New Zealand manufacturer or importer)		Contact Address	
<b>DEVI Heating Systems Ltd</b>		<b>Unit b, 36 Sonter Road Christchurch</b>	
New Zealand Company Number (if applicable)			
<b>962053</b>			
Telephone	Fax	Email address	
<b>03 348 0070</b>	<b>03 348 0067</b>	<b>info@devi.co.nz</b>	
<b>Medium Risk Article – Details<sup>3</sup> (Product name, type, rating, brand, model, batch numbers, and serial numbers, as applicable)</b>			
<b>Devilink CC DCC01 and PSU DCCPSU01</b>			
<b>Devilink PSU DCCPSU01</b>			
<b>Devilink FT(S) and Devilink RS</b>			
<b>The Medium Risk Article, listed above, fully complies with the cited standard(s), as listed:-</b>			
Standard number & issue year:- EN60730-1:2000 & EN60730-2-9:2002		Standard number & issue year:- EN 300 220-2	
Standard Title:- Automatic Electrical controls for household and similar use – Part 1:general requirements(IEC 60730-1:1999(modified)) & Automatic electrical controls for household and similar use – Part 2-9: Particular requirements for temperature sensing controls (IEC 60730-2-9:2000(modified))		Standard Title:- Electromagnetic compatibility and Radio Spectrum Matters (EMS); Short Range Devices (SRD); Radio equipment to be used in the 25 MHz to 1 000MHz frequency range with power levels ranging up to 500mW; Part 2 Harmonised EN covering essential requirements under Article 3(2) of the R&TTE Directive	
Edition / Amendment status:- None	AS/NZS ZZ modified <b>NA</b>	Edition / Amendment status:-	AS/NZS ZZ modified <b>NA</b>
<b>Or complies with the Conformity Cooperation Agreement - Yes / No (Delete as applicable)</b>			
Names and addresses of any testing organisation or body			
Name(s)		Address(es)	
<b>Intertek Semko AB</b>		<b>Torshamnsgatan 43 P O Box 1103 164 22 Kista Sweden</b>	
Reference to relevant test reports/certification, and issue date of the reports/certification, that show how compliance is achieved:-			
Standard(s) or document(s) used, to show how compliance with cited standard is achieved:-	Report/Certification or Document reference N°(s):-	Issue date(s)	
EN60730-1:2000 & EN60730-2-9:2002	903170	22 October 2009	
EN 300 220-2			
Reference to any management systems involved:- <b>Danfoss Heating Solutions is certified to comply with ISO 9001:2008, ISO 14001 and ISO 18001.</b>			
<b>Additional<sup>4</sup> information</b>			
<b>Declaration</b>			
I hereby declare that the above specified fittings or electrical appliances comply with the requirements of Regulation 83 of the Electricity (Safety) Regulations 2010    <b>Issuer Identification:</b> (as affixed to the article).		<b>Signed for and on behalf of:</b>	
		<b>Devi heating Systems Ltd</b>	
		<b>Name<sup>5</sup> &amp; position, as authorized by the issuer</b>	
		<b>Neil Mosley, Managing Director</b>	
		<b>Signature</b>	<b>Date</b>
	<b>NR Mosley 15/10/2022</b>		
<b>Continuing validity of the declaration of conformity</b>			

<sup>1</sup> Every declaration of conformity should be uniquely identified.

<sup>2</sup> The responsible issuer must be unequivocally specified.

<sup>3</sup> The “Article” must be unequivocally described so that the declaration of conformity may be related to the article in question. For mass-produced products, it is not necessary to give individual serial numbers. Where variants of an article are to be covered, these must be detailed.

<sup>4</sup> Text should appear here only if any limitation on the validity of the declaration of conformity and/or any additional information are given.

<sup>5</sup> Full name and function of the signing person(s) authorised by the issuer's management to sign on its behalf should be given. The number of signatures, or equivalent, included will be the minimum determined by the legal form of the issuer's organization.

The issuer of the declaration of conformity shall have procedures in place to ensure the continued conformity of the medium risk article, as delivered or accepted, with the stated requirements of the declaration of conformity.

The issuer of the declaration of conformity shall have procedures in place to re-evaluate the validity of the declaration of conformity, in the event of:-

- a) changes significantly affecting the article design or specification,
- b) changes to the standards which conformity of the article is stated,
- c) changes in the ownership or structure of management of the supplier,
- d) if relevant, or relevant information indicating that the article may no longer conform to the specified requirements.

#### **Additional information regarding the declaration**

“Issuer Identification” as affixed to the article:- this marking should identify the issuer of the SDoC and may be for example in the form of a NZ GST N°, NZ Company N°, Unique NZ brand name or trademark, or SCN issued by Radio Spectrum Management (this number can be used, even if a C-tick is not required for the article), etc. Failure to mark a product with such unique identification may result in the issuer being held responsible for compliance of an article that may not have been supplied by the issuer, unless the issuer can prove otherwise! This is particularly relevant where the same or very similar model is or may be imported or manufactured, by other NZ suppliers.

A copy of the SDoC and test report(s) (certification) and/or other supporting compliance documentation must be available, if the supporting compliance documentation is not available directly from issuer, the name and address of from where it can be obtained from, must be provided by any supplier within the New Zealand supply chain. (Note: A copy of the SDoC and supporting documentation must be available within 10 working days after being asked to do so, by Energy Safety, a purchaser, or other consumer, of the article declared).

A person who sells or offers for sale, a declared medium risk article commits an offence, if at the time of sale or offer to sell, a valid declaration of conformity for the article has not been made, or the person cannot provide a copy of the declaration of conformity, along with the required supporting documentation, within the timeframe allowed. Penalties associated with a grade A offence are fines, not exceeding \$10,000 for an individual or \$50,000 for a body corporate (company) if successfully prosecuted, or a fixed infringement fee, of \$1,000 for an individual or \$3,000 for a body corporate (company).

Listings of the current regulatory definitions for electrical equipment deemed to be medium risk articles, can be found at: [http://www.energysafety.govt.nz/templates/MultipageDocumentTOC\\_24889.aspx](http://www.energysafety.govt.nz/templates/MultipageDocumentTOC_24889.aspx) within the Energy Safety website: <http://www.energysafety.govt.nz>

This form can be edited to increase any text box size, in order to insert more detail, than the current space allows, if required.

This is an example ISO/IEC 17050-1 form for a recognised declaration of conformity; any other form complying with the requirements of ISO/IEC 17050-1:2004, may be used instead, for the purpose of Electricity Regulation 83.

Nothing prevents this form being extended to act as an SDoC, for other regulatory purposes.

**THIS COMPLETED FORM REMAINS WITH THE ISSUER AS PART OF THE DOCUMENTATION  
REQUIRED AS EVIDENCE OF COMPLIANCE  
DO NOT SUBMIT A COPY OF THIS FORM TO ENERGY SAFETY, UNLESS SPECIFICALLY  
REQUESTED TO DO SO**
