

DESCRIPTION

Galvanised steel mesh wire guard with fixing tabs are designed to prevent damage to surface mounted Energostrip radiant heaters.

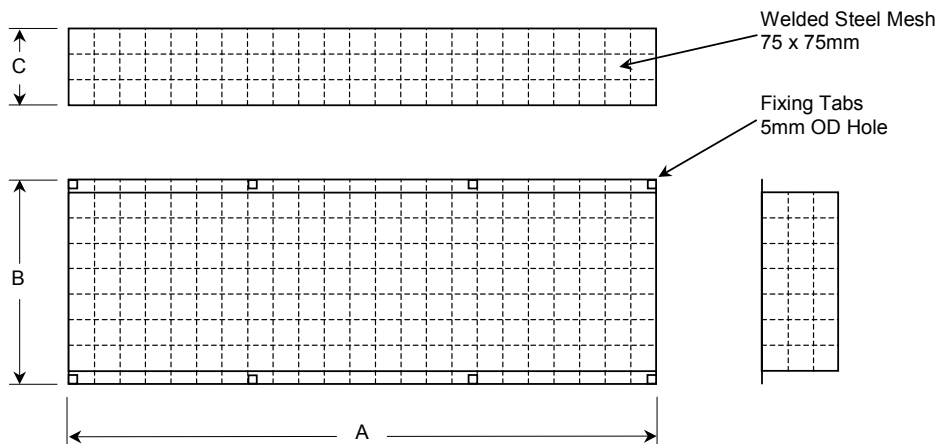

APPLICATION

The steel mesh wire guard is designed to give protection to surface mounted Energostrip heaters when used in high activity areas such as school halls, gymnasiums and sports venues. The wire guards are mounted independently of the heater.

CONSTRUCTION

- 75 x 75mm steel mesh, folded and welded
- Fixing tabs with 5mm OD holes
- Galvanised finish (optional powder coated colours available)

Type	Energostrip	Power (W)	Overall Dimensions (mm)		
			A	B	C
WG4	EE4	400	740	220	200
WG6	EE6	600	1050	220	200
WG10	EE10	1000	1770	220	200
WG8	EE8	800	740	350	200
WG12	EE12	1200	1050	350	200
WG16	EE16	1600	1450	350	200
WG20	EE20	2000	1770	350	200
WG18	EE18	1800	1050	490	200
WG24	EE24	2400	1450	490	200
WG30	EE30	3000	1770	490	200
WG42	EE42	4200	1770	490	200

Not to Scale

INSTALLATION INSTRUCTIONS

These instructions should be used in conjunction with Energotech AB instructions supplied with Energostrip Heaters.

- Mount the Energostrip heater as per instructions included with the heater.
- Centre the Wire Guard over the Energostrip so there is clearance all round the heater.
- Attach the Wire Guard with screws to the ceiling.
