

#### DESCRIPTION

Siemens convector heaters are a compact, panel heater designed for domestic and commercial use. The heater is fixed to the wall using the supplied mounting bracket. The outer carton is specially marked for use as a template, to assist in positioning the heater when fitting it to the wall. Alternatively, the heater may be recessed into the wall cavity.

#### INSTALLATION

- The heater is fixed to the wall using the supplied mounting bracket. The outer carton is specially marked for use as a template, to assist positioning on the wall.
- The flex can pass through either side of the mounting bracket.
- Ensure a minimum clearance of 100mm is maintained from the floor and any flammable objects such as curtains, and upholstered furniture.
